PROFESSIONAL SUMMARY

Experienced software engineer with strong expertise in React, Next.js, and UI engineering. Skilled at designing and developing scalable frontend systems, building production interfaces, and applying UI/UX principles to enhance usability and performance. Over 1 year of experience delivering responsive applications, collaborating with cross-functional teams, and integrating well-structured APIs into high-quality user-facing solutions.

EXPERIENCE

KFINTECH | SOFTWARE ENGINEER

Feb 2025 to Present (Internship converted to Full-time in Aug 2025)

- Designed and developed responsive dashboard interfaces using MERN stack, delivering 7 to 10 production-ready internal screens.
- Integrated frontend with backend APIs, ensuring consistent data flow, clear error handling, and smooth end-to-end functionality.
- Applied strong UI and UX principles such as layout structure, visual hierarchy, micro interactions, and basic accessibility to create reliable and maintainable interfaces.
- Collaborated with product managers, backend developers, and QA teams to align requirements, refine flows, and support releases.

EAST COAST RAILWAY | FULL STACK DEVELOPMENT INTERN

June 2024 – July 2024 | Rail Sadan

- Led the integration of frontend and backend, and worked extensively on backend development using PHP & MySQL to ensure smooth operation.
- Designed and implemented data models, creating a scalable database for efficient data management.
- Managed the project's progress, coordinating the team and ensuring all components were merged into a cohesive solution.
- Adapted quickly to PHP from a MERN background, while improving the frontend design and enhancing user experience.

PLANOCAST | SENIOR SOFTWARE DEVELOPER

May 2023 to Dec 2023

- Built a scalable web application using React, React Query, Vite, and Render, integrating RESTful APIs for authentication, authorization, and error handling.
- Designed a 29 screen UI in Figma, using user feedback and analytics while following good practices in UI, UX, accessibility, and scalability.
- Improved micro interactions and overall usability through a user focused approach.
- Maintained high code quality through modular design, performance improvements, and testing to ensure reliability.

PROJECTS

TECHFEST WEBSITE

REACTJS, NODEJS, FIREBASE

Mar 2024

- Built a responsive website for the Perception Tech Fest using React, Firebase, and Vite, supporting high traffic and real time registrations.
- Delivered within a strict one-week deadline using an agile approach, providing a polished, user-centric interface.

EDUCATION

ODISHA UNIVERSITY OF TECHNOLOGY AND RESEARCH

B.TECH IN COMPUTER SCIENCE & ENGINEERING

Dec 2021 - May 2025 | Bhubaneswar

CGPA: 9.24 / 10.0

ST. XAVIER'S HIGH SCHOOL, KHANDAGIRI

HIGHER SECONDARY (PCMB)

Apr 2019 | Bhubaneswar

Percentage: 94.2% (top 5%)

CERTIFICATIONS

PWC Cloud Launchpad Program

AWS Knowledge: Architecting

Salesforce Developer Virtual Internship

AI ML Course - CTTC

Google Cloud Fundamentals Core Infrastructure

SKILLS

PROGRAMMING

3+ years:

TypeScript • JavaScript • Python • CSS

1+ years:

JAVA • C/C++ • PHP

TECHNOLOGY

Next.js • React • Tailwind • FastAPI

Git/Github • MongoDB • MySQL

Figma • Windows • Linux

ADDITIONAL PROJECTS

ReSatiare

Connects restaurants with NGOs for surplus food distribution. Top 15 in GDSC-WOW hackathon.

FarmerG

Platform ensuring transparency in farmer-market connections. Recognized in DEVCAATION '23 and ADAVITA.

TaskGuide

Chatbot for maintenance queries.

Automated Grading System

System for college grading automation.
